I am currently the Project Manager of the Generations and Gender Programme. In this position, I oversee the day-to-day management of a comparative, longitudinal survey throughout the project lifecycle. My main research interests revolve around demographic shifts and the resulting sociological, economic and political effects on both the micro and macro level. I am also the Executive Director of ODISSEI, the Dutch national data infrastructure for the Social Sciences.

WORK EXPERIENCE**2017 – Current date – ODISSEI, Executive Director (Part-Time)**

I was recently appointed the Executive Director of the Dutch National Infrastructure for the Social Sciences. I developed its €37 million development plan for 2018-2023. In this position my responsibilities also include the shaping and further development of the content of ODISSEI, the starting of new initiatives and projects, the creating of a network and maintaining relations with important stakeholders and maintain and start connections with other initiatives, work together with the existing studies and surveys to accomplish the ODISSEI goals, and serve the interest of ODISSEI in national and European meetings.

2013 - Current date – Generations and Gender Programme, Project Manager

As project manager of the Generations and Gender Programme I have overseen the day-to-day management of a cross-national longitudinal social survey across 19 countries. The main responsibilities included overseeing the harmonisation of data, ensuring data quality, instigating dissemination activities and writing policy briefs on the findings of the research programme as well as drafting strategic plans for key stakeholders within the programme. I am also responsible for the GGP's contribution to a cluster project for Horizon 2020 led by the European Social Survey, Survey for Health Ageing and Retirement in Europe and the Centre for European Social Science Data Archives (www.seriss.eu). I am also overseeing the GGP application for ESFRI membership which is currently at the status of emerging project. As part of my job have supervised junior members of staff in data production and research as well as researchers across Europe who contribute to the data produced by the GGP.

2015 - 2017 – Erasmus University Rotterdam, Post-Doc (Part-Time)

Post-Doctoral Research on the project 'Family Dynamics and the Lifecourse in Comparative Perspective' which investigate differences in family dynamics in later life in Europe, China and the US. This is part of a collaboration between Erasmus University Rotterdam, Oxford University, Princeton University, Peking University and Chemnitz Technical University. My analysis focuses on later life relationships between parents and children in China and Europe.

2012 – Scottish Government, Local Government Finance Statistics, Secondment

Three-month position assisting in the collection, validation, analysis and presentation of Local Authority expenditure data in Scotland. The role focused on developing new validation and dissemination practices and the visualisation of over £11 billion worth of expenditure.

2012 – ESPAnet 10th Annual Conference, University of Edinburgh, Conference Administrator

Administrator and assisting in the organising of a large international academic conference for the European Social Policy Analysis Network. The conference took place in early September 2012 and hosted over 200 delegates from across Europe and beyond.

2010 - 11 – School of Social and Political Science, University of Edinburgh, Research Assistant

Assisted with several research projects by sourcing and analysing literature and data for departmental colleagues. Also copy edited published works including the book *Working Poverty in Europe. A Comparative Approach* (Neil Fraser, Rodolfo Gutierrez and Ramon Pena-Casas (eds), 2011, Palgrave Macmillan)

2008 – 09 - Gray Page Intelligence Services Ltd, Maritime Intelligence Analyst

Conducted research in the Maritime Industry for Government and Private Clients on a wide variety of issues with a particular focus on security, illegal activities and Piracy in the Gulf of Aden and the Gulf of Guinea. Also personally responsible for the maintenance of databases and implementation of intelligence architecture

EDUCATION

2017 - 19, University of Bicocca Milano, MBA Research Infrastructure Management (TBC)

The course is a comprehensive training program for senior managers of international research infrastructures. It covers governance, financing, leadership, management, accounting and service provision training structured around practical and hands on exercises. My field project for the Masters' is an examination of fieldwork financing strategies in cross-national survey infrastructures.

2018 – Erasmus University Rotterdam, Basis Kwalificatie Onderwijs (BKO)

The course provided training in the fundamental principles of teaching at a university level including classroom management, course design, the use of ICT and theories of teaching and learning. The principles were then applied and evidenced through the development of a course on comparative methods for graduate students at the Erasmus Faculty of Social and Behavioural Sciences Graduate School and a course on Survival Analysis in Demographic Analysis at the University of Groningen Faculty of Spatial Sciences.

2010 - 14, University of Edinburgh, PhD Social Policy

My research focuses on Intergenerational Relations across the life course with a particular focus on how older generations support younger generations in adult life through periods of financial uncertainty. The study aims to assess how social policy affects such behaviour by comparing evidence from countries across Europe by using multiple waves of the Survey of Health, Ageing and Retirement in Europe.

2009 - 10, KU Leuven, Belgium, MSc Policy Analysis, (Great Distinction)

Dissertation Title: "Intergenerational solidarity in Europe: Diversity across welfare regimes" – In this paper I look at the political economic consequences of societal ageing by focusing on the effect of intergenerational cohabitation on intergenerational solidarity in welfare regimes across Europe. The course was heavily focused on qualitative and quantitative methods with a particular focus on the handling of longitudinal studies. I maintained grades in excess of 80%.

2007 - 08, University of Essex, MA Global and Comparative Politics, Merit

Dissertation Title: "Ethnic Voting and Electoral systems in Sub Saharan Africa" – In this paper I aimed to explore the relationship between ethnic group fragmentation and electoral systems as part of my wider interest in demographic parameters and their interaction with political institutions. For this paper I received a distinction as well as for all exams within the course.

2004 - 07, University of Essex, BA Politics, Philosophy and Economics, 2:1

Multi discipline degree that covered the basic elements of politics, philosophy and economics and an in depth study of international development issues.

GRANTS

ODISSEI Bridge Funding:

Applicant for ODISSEI-EUR in Dutch Consortium
NWO, Grant Number: NRGWI.obrug.2018.008
€498,560 for the period 2018-2020

Social Science and Humanities Open Cloud (SSHOC):

Lead Participant for NIDI-KNAW in European wide consortium
Horizon 2020, Grant Number: 823782
€14,455,594.08 for the period 2019-2022, €448,335.00 of which is allocated to NIDI-KNAW

Generations and Gender Programme: Evaluate, Plan, Initiate (GGP – EPI):

Primary Investigator
Horizon 2020, Grant Number: 739511
€1,996,667.50 for the period 2017-2019, €1,218,335.00 of which is allocated to NIDI-KNAW

Synergies for Europe's Research Infrastructure's in the Social Science's (SERISS):

Lead Participant for NIDI-KNAW in European wide consortium
Horizon 2020, Grant Number: 654221
€8,494,397 for the period 2015-2019, €345,625 of which is allocated to NIDI-KNAW

PHD SUPERVISION

Jing Zhang, Grandparenting in China
CSC PhD Grant, Erasmus University Rotterdam, 2017-2020

Damiano Uccheddu, Gender inequalities in health among older adults. A longitudinal and comparative study
Part of the multi-country project "Care, Retirement & Wellbeing of Older People Across Different Welfare Regimes"
(CREW) funded by a Joint Programming Initiative, More Years Better Lives 2017-2020

TEACHING

2016 - 18 – School of Social and Behavioural Sciences, Erasmus University Rotterdam, Lecturer

Lecturing and tutoring a course on the use of comparative methods in social and behavioural sciences. The course was focused on the practical application of quantitative methods for PhD students in the early stages of their PhD.

2015 - 18 – Faculty of Spatial Science, University of Groningen, Lecturer

Lecturing and tutoring a course on the use of event history analysis in demographic research. The course was focused on the application of quantitative methods for graduate students undertaking a research masters.

2011 - 12 – School of Social and Political Science, University of Edinburgh, Tutor

Tutor for undergraduate and postgraduate courses including European Social Policy, Research Design and Core Quantitative Data Analysis.
